SUMMARY

Eagle Rock Recreation Center is located at 1100 West Eagle Vista Drive in the Eagle Rock community of the City. This 20.68-acre park features a community center, childcare center, children's play areas, multipurpose fields, tennis and basketball courts, and outdoor fitness equipment.

On June 17, 2021, the Board of Recreation and Park Commissioners (Board) approved the Eagle Rock Tiny Home Village Project (Eagle Rock Tiny Home Village), a temporary homeless shelter facility located on property adjacent to the Eagle Rock Recreation Center (Report No. 21-105).

Since 1986, RAP has licensed a 0.4-acre parcel (Parcel) owned by SCE for additional parking space at the Eagle Rock Recreation Center. The License Agreement has been renewed at five-year intervals. On July 15, 2021, the Board approved the last renewal of said license under Contract No. 9.2167 for a five-year term (Report No. 21-127). In addition to parking space, the License was revised to include the use of SCE's property for a 20-foot-wide fire access/turnaround, perimeter fencing, and a dumpster in a fenced enclosure, in order to accommodate the homeless shelter facility. In October 2025, RAP received a communication from SCE, containing SCE's latest proposed License Agreement, Contract No. 9.2167 (formerly Contract No. L 1388). This new Agreement (included herein as Attachment 1) will govern the continued use of SCE's property for the fire access/turnaround, perimeter fencing, dumpster, fencing, and two parking spaces.

BOARD REPORT

PG. 3 NO. 26-116

This proposed Agreement includes increased annual fees that will total \$ 20,475.65 for the next five-year term, as shown in the following payment schedule:

<u>Term</u>	<u>Yearly Amount</u>	<u>Payment Due</u>
First Year	\$3,705.58	August 1, 2026
Second Year	\$3,890.85	August 1, 2027
Third Year	\$4,085.40	August 1, 2028
Fourth Year	\$4,289.67	August 1, 2029
Fifth Year	\$4,504.15	August 1, 2030

RAP staff has reviewed the request from SCE and recommends that the Board grant the request. RAP has a continuing need for the usage of this property to service both the Eagle Rock Recreation Center and the Eagle Rock Tiny Home Village. The Agreement, if approved, will commence on August 1, 2026, and expire July 31, 2031.

ENVIRONMENTAL IMPACT

The proposed action consists of the execution of a license agreement for the continued use of a 0.4-acre parcel owned by SCE, in connection with the use of an adjacent parcel of property for the temporary homeless shelter/low barrier navigation center on City-owned property.

California Government Code Section 65660 defines a low barrier navigation center as a “Housing First”, low-barrier, service-enriched shelter focused on moving people into permanent housing that provides temporary living facilities while case managers connect individuals experiencing homelessness to income, public benefits, health services, shelter, and housing. A low barrier navigation center like the Eagle Rock Tiny Homes Village provides temporary housing and case management services with the goal to transitioning the homeless population into more permanent housing.

On April 17, 2018, the City Council (CF No. 15-1138-S33), with the Mayor’s support, unanimously voted to declare an emergency shelter crisis in the City of Los Angeles which allows for shelters to be established and operated on property owned or leased by the City of Los Angeles in any zone without limits.

Public Resources Code (PRC) 21080.27.5 exempts from the California Environmental Quality Act (CEQA) leasing, providing financial support, constructing, operating, or entering into contracts to provide services to a low barrier navigation center.

California Government Code Section 8698.4, governing homeless shelter projects under a shelter crisis declaration, exempts from CEQA actions taken by a city or other local government, to lease, convey, or encumber land owned by a local government for homeless shelters.

BOARD REPORT

PG. 4 NO. 26-116

Based on these considerations, RAP staff recommends that the Board determines that the proposed Board action, therefore, is statutorily exempt from CEQA environmental review pursuant to PRC 21080.27.5 and Government Code Section 8698.4. Staff will file a Notice of Exemption with the Governor's Office of Land Use and Climate Innovation and the Los Angeles County Clerk upon Board's approval.

FISCAL IMPACT

The approval of this Report will result in an impact to RAP's General Fund, as noted in the annual license fees.

This Report was prepared by Gabriel Morada, Project Assistant, Planning, Construction and Maintenance Branch.

Licensee further acknowledges and agrees that:

- The consideration paid by Licensee pursuant to Article 3 of the Agreement is consistent with the value of the rights comprising the License Privilege; the consideration is *not* consistent with the higher market value for a greater right, privilege, or interest (such as a lease) in the Property or similarly situated parcels.
- Licensee is not a tenant or lessee of Licensor and holds no rights of tenancy or leasehold in relation to the Property.
- The Agreement and/or any prior and/or future acts or omissions of Licensor shall not create (or be construed as creating) a leasehold, tenancy, or any other interest in the Property.
- Licensor may terminate the License and revoke the License Privilege at any time, subject, if applicable, to a notice period agreed upon by the parties, as more particularly set forth in the Agreement.
- In consideration of Licensor's grant of the License, Licensee specifically and expressly waives, releases, and relinquishes any and all right(s) to assert any claim of right, privilege, or interest in the Property other than the License, except that the foregoing shall not limit, reduce, or otherwise diminish, in any way, the regulatory and/or police power of the City of Los Angeles and except for any easements for other interests or rights the City of Los Angeles may currently own for purposes of operating public utilities, sewer, stormwater drainage, or street systems.

Further, with respect to items not otherwise listed in Article 29.a-h, Licensee shall be considered in material default should Licensee fail to observe or perform any other provision of this Agreement for more than fifteen (15) days during the entire Term of the Agreement in the aggregate, after Licensor provides an initial written notice of such failure. After providing initial notice under this provision, Licensor will not be required to provide any subsequent notice of breach of this Agreement.

30. 31. Licensee’s Personal Property Upon Termination or Expiration: In the event that this Agreement is terminated, whether termination is effected pursuant to Article 28 and/or 30, or in the event this Agreement expires pursuant to Article 2, Licensee shall, at Licensee’s sole cost and expense and prior to the earlier of the effective termination date or expiration date, remove all weeds, debris, and waste from the Property and peaceably quit, surrender and restore the licensed Property to the condition it was in prior to the Licensee’s use of the Property, in a manner satisfactory to Licensor.

If Licensee fails or refuses to remove any of Licensee’s personal property, building(s), fixture(s) or structure(s) from the Property prior to the earlier of the termination date or expiration date, said personal property, building(s), fixture(s) or structure(s) shall be deemed abandoned by the Licensee, and the Licensor shall have the right, but not the obligation, to remove, destroy, sell or otherwise dispose of them with no further notice to Licensee. Licensor shall not be required to seek and/or obtain judicial relief (including, but not limited to, the filing of an unlawful detainer action), nor shall Licensor be responsible for the value of Licensee’s personal property.

Licensor shall have the right to charge and recover from Licensee all costs and expenses incurred by Licensor related to (i) the removal, disposal or sale of Licensee’s personal property, building(s), fixture(s) or structure(s), (ii), the removal of any waste, weeds, or debris on the Property, (iii) environmental studies and environmental remediation and/or cleanup attributable to Licensee’s use of the Property, and (iv) the restoration of the Property to the condition it was in prior to Licensor’s initial use of the Property. Licensee agrees to pay such expenses to Licensor upon demand.

32. Limitation of Liability:

IN ORDER FOR LICENSEE TO OBTAIN THE BENEFIT OF THE FEE IDENTIFIED IN ARTICLE 3, WHICH INCLUDES A LESSER ALLOWANCE FOR RISK FUNDING FOR LICENSOR, LICENSEE AGREES TO LIMIT LICENSOR’S LIABILITY PURSUANT TO THIS AGREEMENT. AS SUCH, IF LICENSEE IS ENTITLED TO ANY RELIEF FOR LICENSOR’S NEGLIGENCE, INCLUDING GROSS NEGLIGENCE, FOR DAMAGE OR DESTRUCTION OF LICENSEE’S PERSONAL PROPERTY, BUILDING(S), STRUCTURE(S) OR FIXTURE(S), THE TOTAL LIABILITY OF LICENSOR SHALL NOT EXCEED THE TOTAL FEES ACTUALLY PAID BY LICENSEE TO LICENSOR DURING THE TERM OF THIS AGREEMENT.

FURTHER, IN NO EVENT SHALL LICENSOR BE LIABLE UNDER ANY CIRCUMSTANCES FOR INJURY OR DAMAGE TO LICENSEE’S BUSINESS, IF ANY, INCLUDING, BUT NOT LIMITED TO, LOSS OF PROFITS, LOSS OF RENTS OR OTHER EVENTS, LOSS OF BUSINESS OPPORTUNITY, LOSS OF GOODWILL OR LOSS OF USE, IN EACH CASE, HOWEVER OCCURRING, RELATED TO THIS AGREEMENT. THE PROVISIONS OF THIS SECTION 32 SHALL EXPRESSLY SURVIVE THE TERMINATION OR EXPIRATION OF THIS AGREEMENT.

33. Non-Possessory Interest: Licensor retains full possession of the Property and Licensee will not acquire any possessory interest, whether temporary, permanent, or otherwise by reason of this Agreement, or by the exercise of the permission given herein. Licensee will make no claim to any such interest and Licensee will not claim that it has or ever had an irrevocable license in the Property.

34. Waiver: Licensor shall not be deemed to waive any provision of this Agreement orally or by conduct. Any waiver by Licensor of any provision of this Agreement must be in a writing signed by Licensor. No waiver by Licensor of any provision shall be deemed a waiver of any other provision or of any subsequent breach by Licensee of the same or any other provision. Licensor's consent to or approval

Initial (____)/(____/____)
Licensor/Licensee

of any act shall not be deemed to render unnecessary the obtaining of Licensor's consent to or approval of any subsequent act by Licensee. Licensor's acceptance of payment after providing notice of termination to Licensee shall not constitute a waiver of Licensor's termination of the Agreement.

35. Authority: This Agreement is executed subject to General Order No. 69-C of the Public Utilities Commission of the State of California dated and effective July 10, 1985, incorporated by this reference. As set forth in General Order 69-C, this License is made conditional upon the right of the Licensor either on order of the Public Utilities Commission or on Grantor's own motion to resume the use of that property (including, but not limited to the removal of any obstructions) whenever, in the interest of Licensor's service to its patrons or consumers, it shall appear necessary or desirable to do so. Licensee agrees to comply with all federal, state, and local laws and regulations. This Agreement should not be construed as a subordination of Licensor's rights, title, and interest in and to its fee ownership, nor should this Agreement be construed as a waiver of any of the provisions contained in said License or a waiver of any costs of relocation of affected Licensor facilities.

36. Electric and Magnetic Fields ("EMF"): There are numerous sources of power frequency electric and magnetic field ("EMF"), including household or building wiring, electrical appliances and electric power transmission and distribution facilities. There have been numerous scientific studies about the potential health effects of EMF. Interest in a potential link between long-term exposures to EMF and certain diseases is based on this scientific research and public concerns.

While some 40 years of research have not established EMF as a health hazard, some health authorities have identified magnetic field exposures as a possible human carcinogen. Many of the questions about diseases have been successfully resolved due to an aggressive international research program. However, potentially important public health questions remain about whether there is a link between EMF exposures in homes or work and some diseases including childhood leukemia and a variety of other adult diseases (e.g. adult cancers and miscarriages). While scientific research is continuing on a wide range of questions relating to exposures at both work and in our communities, a quick resolution of the remaining scientific uncertainties is not expected.

Since Licensee plans to license or otherwise enter the Property that is in close proximity to Licensor electric facilities, Licensor wants to share with Licensee and those who may enter the Property under this agreement, the information available about EMF. Accordingly, Licensor has attached to this document a brochure that explains some basic facts about EMF and that describes Licensor policy on EMF. Licensor also encourages Licensee to obtain other information as needed to assist in understanding the EMF regarding the planned use of this Property.

37. Induced Voltages: Licensee hereby acknowledges that any structures (including, but not limited to, buildings, fences, light poles) that exist or may be constructed on the Property licensed herein, (hereinafter, the "Structures") in close proximity to one or more high voltage (66 kilovolt or above) electric transmission lines and/or substation facilities may be susceptible to induced voltages, static voltages and/or related electric fault conditions (hereinafter collectively referred to as "Induced Voltages") unless appropriate grounding or other mitigation measures are incorporated into the Structures. If not properly mitigated, Induced Voltages can cause a variety of safety and/or nuisance conditions including, but not limited to, electric shocks or other injuries to individuals contacting the Structures or other utilities connected to the Structures (including, but not limited to, natural gas lines, water lines or cable television lines), or interference with or damage to sensitive electronic equipment in or around the Structures. Measures to mitigate Induced Voltages, if required, will vary from case to case because of

Initial (____)/(____/____)
Licensor/Licensee

factors such as electric facility configuration and voltage, other utilities involved, or sensitivity of electronic equipment. Licensee will be responsible to determine what Induced Voltages mitigation measures should be undertaken regarding the Structures and to implement such mitigation measures at its sole cost and expense.

Licensee agrees for itself and for its contractors, agents, licensees, invitees, and employees, to save harmless and indemnify Licensor, its parent, subsidiaries and affiliated entities and their respective officers and employees against all claims, loss, damage, actions, causes of action, expenses and/or liability arising from or growing out of loss or damage to property, including Licensor’s own personal property, or injury to or death of persons, including employees of Licensor caused by or resulting from or connected to Induced Voltages on or related to the Structures.
